Dear Hiring Manager,

Noticing from your company Instagram, I was thrilled to know the opportunity of being an Organizing Committee of USTransit. As a UST student with enthusiastic for technology, I believe that I would make a great contribution to the team.

Developing website and learning latest up-to-date technology are always of my interest. Now I am focusing on sharpening my web development skill as my start of my learning pathway. I am planning to learn either app development or AI development in the future. Now I learn all these things from online resource and school. I am eager to learn and sharpen my skill and hope to become a technology experts as soon as possible. Besides, I hope that I can actually deploy my skill and help other but not just doing my own project for myself. It is one of the biggest initiative for me to apply for this position.

Contributing to my former Executive Committee role in student society, part-time and internship working experience, I have organized different activities and cooperated with different people. These experience have trained my communication skills and the mindset of teamwork. As a team player, I would be able to collaborate with other members, develop friendship and dedicate to my team. Through these qualities, I have confidence in my ability to handle and facilitate work if I can join the OC team.

For a better illustration of my background and qualification, please review my resume and my personal website(https://s050425b.github.io/personal_website/) and I hope to have the opportunity to speak with you. Thank you for your attention.

Yours faithfully,
Lau Chung Yuen
